Classic

Timeless contemporary

The Classic Collection seamlessly fuses masterful engineering with the utmost elegance, resulting in a timeless piece of art that serves as a captivating centerpiece in any environment.

The design draws inspiration from 'The Great Gatsby' and the style of the Gilded Age.

It's a perfect infusion of classic appeal, beauty, and versatility—a true masterclass in harmony and balance.

Sustainability

Broadening awareness of the importance of caring for the planet's resources is one of the greatest challenges of our time.

We believe in an enduring, sustainable coexistence between human civilization and the natural world that gives it life – both in the present and the future.

We carefully consider water throughout our production process, reusing batches as many times as possible, and later treating it so that it can return to the aquifer and continue its natural journey.

Always acting with the environment in mind, Franz Viegner adds a dimension of enjoyment and mutual respect to the relationship that humans already have with water.
